FACEBOOK MARKETPLACE DROPSHIPPING

DANIEL SELLS ONLINE

SUPPORT SCRIPT

Script Version #1 if no prior issues happen with your account and its the first time.

Meta Support, I don't know what may have caused the shipping option to become disabled on my marketplace account. perhaps its just a minor oversight and can be easily fixed. please review my account and advise on next steps. My account insights are within Facebook community guidelines and commece policies. I don't suspect the shipping option is being affected by account health issues. However, if there is a concern I would like the opportunity to rectify the issue and gain good standing with Meta guidelines and policies.

Script Verison #2 if there was a previous interruption with ability to buy/sell/shipping

Dear Meta Support, I am writing to you today to inquire about the ability to enable the shipping option on all Facebook Marketplace listings. Recently, I have been affected by Meta's interruption of my ability to buy and sell on Facebook Marketplace. As a result, my seller metrics have been adversely affected through no fault of my own. I understand that Meta established the ability to buy and sell as well as using the shipping option on my account. However, I am writing to request that my access to the shipping option be reinstated. I believe that allowing me to use the shipping option would benefit both myself and Meta. I understand the importance of data security and would like to assure you that I am taking all necessary steps to ensure that I am taking all necessary steps to protect my data. I understand the importance of data security and would like to assure you that I am taking all necessary steps to ensure that my data is secure. I strongly believe that allowing me to use the shipping option would benefit both myself and Meta. It would give me the ability to reach a larger customer base and, in turn, increase my sales. It would also give Meta a larger customer base. Thank you for taking the time to consider my request
